The Califorms and Pacific coast delegates spent a very pleasant day under the pilotage which committeemen, who devoted their entire time to the entertainment of their entire time to the entertainment of their entire time to the entertainment of their entire time to the convention hall in the exposition building and after examining the x rangements returned in time for dinner. Perhaps the only exception to this sweeping rule was Senator Heart, and he took himself to the race track early in the day, where he spent his time profitably among ans horses and lockeys until the bell rang for the first race in the afternoon. The senator was in receipt of many attentions and the Jockey club house and the St Louis club house were opened to him. His social obligations screened him from public view the greatest part of the day, and only brief interviews could be obtained. Senator Hearst was not without followers in the enemy's country, and the badge bearing the silver climamon bear at its head was visible in the grand stand, at the track, and in the even ing wearers of the famous emblem could be found at the circus the theater Mexican concert and press opening of the convention half.

The Chairmanning support of the delegation.

The Chairmanning support of the delegation.

The Pacific consters are making a vigorous pull for Licutenami Governor White for temporary churman and are winning many recruits for their man. From present appearances there will be a lively fight for the chairmanning. At the meeting of the national committee last 1 (brail) it was agreed that General P Collins of Restor thould be invited to preside at the preliminary proceedings. Now there seems to be a feeling among the committee or at least among members now here that collins should be permanent chairman and some other democrat of eminence temporary chairman Prince of Massachusetts is in favor of giving the Cult formans the temporary chairman and Prince of Massachusetts is in favor of giving the Cult formans the temporary chairman by the committee has invariable selected the temporary chairman and it are has been the custom for the national committee to select both temporary chairman of Maryland for temporary chairman and ten collins for manent chairman the temporary chairman and Sent folius for temporary chairman and ten collins for permanent chairman Western at Senth ern nen are not taking kindly to this alleged programme on the ground should receive some recognition. In addition to talk in favor of Licutenant Governor White, of California there are rumors that Henry Watterson will be orged for permanent chairman and his trends say he will be supported by the volid South in the committee for permanent organization.

In view of the competition for the honor of welding the gavel it is just possible for the upset.

## A CUT AND DRIED CONVENTION.

An Outline of the Frogramme that Cleveland Ras Prepared.

Say Francisco June I — A morning paper prants the following Washington special The St. Louis convention is expected to be the shortest on record. No one thinks it will last more than two days. The programme has all been outlined and the only thing for the convention to do is to endorseit. The chairman will be Congressman Collins, of Boston The chairman of the committee on resolutions will be William R. Morrison of 1th nois. The name of the president will be presented to the convention by Samuel Lockwood of Buffalo, who nominated him for sheriff for governor and for president. There will be four candidates presented for the vice-presidency, namely Allan thousand John G. Black I saue P. Grav and Roger Q. Mills. William L. Scott will be chairman of the national convention. Mr. Scott will carry to St. Louis with him several typewritten expess of the platform to be adopted which have been prepared in consultation with the president by leading democrats here. It is not expected that the platform will be altered in any sesential fact after its array in St. Louis. The platform is an echo of the president's message. For the first time the Democrats came out squarely in fevor of revision of the tariff, refliction.

Chicago June 1—A tremendous sensation occurred in Judge Jamteson's court shortly after 10 o'clock this morning while the docket was being called. Mrs Mecke Rawson was impatiently waiting for her divorce case from her husband, Banker Rawson to be called. Col. H. C. Whitney her hus band a attorney was sitting at a side table waiting when the court was suddenly startled to hear a pistol shot and Col. Whitney at once disappeared under the table. The shot was followed by four more in rapid succession and Mrs. Rawson was seen pursuing Whitney with a revolver. Mrs. Rawson succeeded in emptying the revolver at Whitney before she could be captured. Two bullets but the lawyer, one taking effect in the groin and the other in the left leg. The wound near the groin will probably be Itaal. Judge Jame-on at once ordered. Mrs. Eawson's ar rest and she was immediately taken to the sheriff's office.

Banker Stephen W. Rawson, the unfor tunate woman's husband, reached the city vesterday evening. His presence was known to but a few. He heard of his wife's attempt to kill. Mr. Whitney shortly after it occurred, and hastened to the latter's house. He refused to see reporters saying he duin't wish to leave the bedside of his wounded friend and counsel. He said, however that he was surprised at the attack huying been made on his lawy er instead of himself.

One pecuhar result of to day's affray may be the total loss by Mrs. Rawson of any possible chance at a share of her husband's great wealth. Should she receive a pennten itary sentence for assault on lawver Whitney, the aged banker has only to appear in court and show that his wife has become a felion. He would then be awarded a decree of absolute dworce.

A Quiet Vieit to Partland and its Object-A Sacocsaful Carear on the Stage New York Eugagement.

Mrs. F. W. Stechban, wife of the former manager of the Now Market theater, arrived here early this week, but did not make her presence known except to a few intimate friends, whom she requested not to mention it. Mrs. Stechhan left for San Francisco by last night's steamer. Haft an hour before satting, an Obrooklan reporter learned through one of her friends, of her mission to Portland and of her success in the dramatic profession, and determined on an interview. He found Mrs. Stochhan talking to a few friends who were down to bid her bon coyage. She looked fresh and very pretty, in san exquisitely fitting tallor-made gown, with a bunch of beautiful La France roses at her throat. "Oh, pshaw! I am awfully sonry, you found me out," was her first remark, on learning the nature of the reporter's visit. "I came up very quietly from San Francisco on a little private business, and I hoped to get away again without getting into the papers." Mrs. F. W. Stechban, wife of the former

ness, and I hoped to get away again warn-out getting into the papers."

"But Mrs. Steechan, you are well known-here and there are rumors that you are seek-ing a divorce from your husband. Are they not so?" queriad the reporter.

"Well," she said, "I am getting a divorce from my bushand. I have been in San Fran-

ing a divorce from your husband. Are they not so?" queried the reporter.

"Well," she said, "I am getting a divorce from my husband. I have been in San Francisco for six weeks trying to get things arranged, and my present visit to Portland is in connection with my suit. Whifut dosertion and failure to provide for me, are the grounds on which I have instituted grounds on which I have instituted the proceedings. It began three years ago, right in this city. A few of my intimate friends know that after he left me here he sent me money only once, and has never from that day to this done anything for me. I was compelled to get up a benefit to leave town. I do not want my name connected with his at all. My stage name is freme Dudley, and that is the name I want.

"I am told you have achieved success on the stage," remarked the reporter.

"I am ambitious," responded Mrs. Stechhan, "and I maan to rise in thy profession; and so strong is my ambition that no one can pull me down, no matter what they do or say, not until I am in my coffin, will give up. I went to London when I left here and played at the Theater Comique for two years, supporting myself and little boy all the time. Last October I returned to New York and about six weeks ago in accordance with the wishes of my family, I came to San Francisco, and began my divorce proceedings. I do not think Frank Mr. Stechhan) will attempt to stop me, although he has written several times, imploring me to desist. In about sixty days I will be a free woman. My papers are being made out in Mariposa county, California, and when I have received offers from two London managers: To join D'Oyley Corte's Opera Company and to return to the Theater Comique. I may come up here next mooth with Fanny Davenport in 'Un Toca,' but the arrangements have not been definitely sottled yet, and—"

Just then the "all-ashore" gong sounded and the interview was cut short.

The Jewett Ledge in Josephine County Showing Up Well.

Many carly residents of the Southern part Muny carly residents of the Southern part of the state will recollect the sid Jewett mine which was teented nearly a quarter of a century ago by Messrs. R. S. and T. D. Jewett and D. W. Douthitt, in what was them Jackson county, but is now a part of Josephine county. The ledge was worked by these men for several years, and they put up on it a tweive stamp mill. In 1863 they sold the mine to James Cluggage and William Bybee, who, however, did not pay for it, and who shortly after censed to work it, and now owe, as Mr. Jewett states, \$47,500 on it.

The Jewett brothers have resided for many years on Sauvies island, and a short-time since Mr. T. D. Jewett went out and re-located the old ledge and writes to his brother that he is developing it, and that he rock is very rich, showing gold in nearly every piece taken out. It would be strange if the old leng after lying neglected so long should turn out to be a good paying mine.

Alisky, a veleran fireman of your rity, in which he charges Senttle with unfair play in taking the association tournament from Fordand to Scattle. I will confine myself to the fordand to Scattle. I will confine myself to the fordand to Scattle. I will confine myself to the facts of the case. At our annual convention, held at Vancouver in Jimeo flast year, Fordand was selected as the place for holding the next annual convention and tournament, and were given to understand that 5000 would be raised in Portland for tournament purposes. The time originally set was Santanament.

raised in Portland for tournament purposes. The time originally set was September of this year, but later, the Portland volunteers made application for membership in the association, and were admitted, and at their request the time for loiding the convention and tournament was changed to June. The directors met in Portland the 77th of this month to make the necessary arrangements and at that time net, the committee of the Portland Volunteer Association. They had codeswored to raise the necessary funds, but without much large been secured. The committee referred to was Mr. Holman and Mr. Meagher, and they represented to

impossible to raise more than \$1000, and wonid have great difficulty to raise even that amount. The sum required by the association would be \$2000.

It was expected by the dispotors of the association that when they met in Portland the full amount of \$2000 would have been raised, as it was necessary to get out our posters with as little delay as possible. After consultation the directors give the Partiand committee ten days to report, and if at the expiration of that time the necessary funds were not secured, would have to look elsewhere for funds to carry on the convention and tournament. Ou Friday opening thirty-six hours after the unpiration of the ten days. Mr. Parker, secretary of the association, telegraphed Mr. Heliman assing what Portland had done in way of raising funds, but received no reply, nor had they any word up to less Tuesday, when the directors were again, consulted and they unsalmantly named Scattle as the place, Scattle having a second of the plain they would not the portland had falled any land that the plain they would be partially as the plain that they have been decreasely printing, and as the Portland committee the had aff they could not raise to exceed \$1000, the directors had to look elsewhere for the momey call of the paid will be races were run, still the fact is not denied that a promise of the amount would have to be made before the directors could apport to the third that the paid will be races were run, at the fact is not denied that a promise of the amount would have to be made before the directors could apport to the third that the would not raise the name of the paid will be races were run, at the excess that to necessary amount, no course was not made that they could not raise the course of the far that they could not raise the course of the far that they could not raise the course of the paid will be races where run, at the course of the necessary amount, no course was not made that the course run of the course of the paid will be races that the offer made by Scattle. Dear Syr. Ny attention being called to an article published in your fasse of the 30th inst., concerning the firemen's tournament, and with your kind permission! yould be pleased to say a few words as regards the same. In This Obeodnian of the 30th that, it was claimed that the firemen's tournament was going to be held at Scattle, W. T., on July 4, and the reasons for clanging the tournament from Partland to Scattle (as the officers of the association claim) are that the committee who were appointed to solicit subscriptions for defraying the exponence and for awarding the usual amounts for prizes failed to secure a stated amount prior to a certain date. Heure some of the officers of the association have taken the responsibility upon themselves to have the change made.

The lacts are just these. Mr. Federal and the security of the state of the security of the change made.

The democratic paper at Pendleton bears that "Harvoy Scott said to a gentleman at Portland the other day that Mr. Gearin would be gected and that he (Scott) would yote for him." Mr. Scott is not aware that his private opinion upon this or anything else is particularly sought by the public, or would be of special interest or value to the public. However, since this matter has been mentioned in a public way, he will say that he has not expressed the opinion that Mr. Gearin will be elected; and moreover, he will not you for Mr. Gearin. he will not vote for Mr. Gearin.

Beaten wives, who can be helped by the law or by private aid and sympathy, are those who never wait to be beaten the second time. When they do they are generally past rescue: their only chance for relief is when time. When they do they are generally past rescue; their only chance for relief is when their buildozing husbands attract the attention of "the Society for the Frevention of Cruelty to Animals." A woman who waits to be beaten a second time is not a wants to be beatch a second time is not a woman; she is nothing but a creature with the soul of a spaniel that for the sake of a kennel abjectly submits to be scourged at the caprice of her keeper. Wife-heating is very rejudsive, but women, who are not willing to help the law to punish their persecutors and afford protection to the victims, are beyond the reach of multip halp and are are beyond the reach of public help and are not likely to get much private sympathy. The right of flight from drunken ferocity or sober fury remains to all women, and when they will neither seek adequate punishment for their wrongs, nor ask the divorce court for a legal quittance from their Quilp; in short, when they will do nothing but burst into tears when beaten, what under this situation can the law, the gospel or private sympathy do for such women, who are either not very sensitive to their slavery, or are secretly conscious that they have done something for which they richly deserved to are beyond the reach of public help and are

something for which they richly deserved to be whipped?

The law in England is notoriously lax in the punishment of wife-beaters. So inadequate is the punishment and so terrible are the cases that are of common occurrence that

at him was released on her own recognizance by the judge who solemuly said: "After what you have endured God forbid that I br any other officer of the law should over-sum her of wife beating men, if they thought the beaten women in America would venture to imitate the English woman who killed he tyrant and was set at liberty by a merciful

## SHERIDAN'S CONDITION.

Gen. Sheridan's illness, which is likely to terminate fatally, had reached a dangerous point several days before the public were per-mitted to know it. About his dinner hour on the 21st ult, he had a stroke of apoplexy, and being the second he has had his family and physicians were greatly alarmed. For twenty-four hours after his attack on the 21st nik Ma condition was such as to cause his nd physicians to lear his death at any fainting and physicians to fear his death at any moment. No less than five physicians were in conditiation on the night of the 21st and the marring of the 22d, and three surgeons were in attendance all night of the 21st. The Were in attendance all night of the 21st. The New York Herald's Washington dispatch of

the 23d says:

All Monday night the general was in a surficonscions state. He experienced great difficulty in breathing, and on that account the physicians would not allow him folile down. He was keyft in a kitting position in a large chair. Even in this position it was with the greatest difficulty that he could be accused from the stuper he was in and his breathing made easier. It was not until moneyestorday that he showed signs of improvement. He was then able to sleep naturally when sitting in an easy chair. the 23d says:

As long as Gen. Sheridan is unable to sleet in the natural position of lying down he is in a critical condition of heart disturbance. He may linger a number of days but the ch are that he will not long survive. In any event he will never recover sufficiently to re-sume the active life and work of a well man, for the slightest excitement consequent upon energetic bodily exertion, or imprudent die would throw him back to his present dan-

The Philadelphia Press urges that the treat ment of Gen. Gibbon by President Cleveland and Secretary Enducott be made a subject of congressional inquiry. It recites the facts in the case wherein Gen. Gibbon received imdeserved censure from the president and secretary, for having exercised a power plainly and directly conferred on him by law. The Freis puts the case in this very clear and sensible form, viz: "If the pardon of a sadder by his commanding officer is an infringement of the president's constitutional power to pardon for offensos against the United States, then congress is at fault for misleading the officers of the United States by an unconstitutional enactment. If the law is valid as it stands then the president and secretary of war are hindering its proper enforcement and subjecting a brave and gallant officer to unmerited humiliation and rebuke. In either case it seems to be a very proper subject for a congressional inquiry."

Gen. Henry W. Birge, whose death is announced in our dispatches, entered the Union army as colonel of the 13th Connecticorps; was promoted to brigadier-general of volunteers, September 19th, 18th for collancut volunteers; served in the 19th army wolunteers, September 19th, 1864, for gallantry and skill at the battle of Winchester, Va., in Sheridan's Shehandoah campaign and was breveted major-general February

# THE AGRICULTURAL COLLEGE.

Money Already Paid Over by the Government for the Establishment of an Agricultural Station. CORVALLIS, May 31.

TO THE ROTTOR OF THE CARGOLIM!

I read with interest your article on the Hatch bill in your is no of the 22th Inst., and as you have been gisinformed in one particular I beg to inclose you a copy of the law as passed by the last session of congress and amended by the present one.

"You say "Oregon was not one of the thirthans effects that artibilished experimental."

could not, as the legislature was not in session to pass the act."

You will observe the Hatch bill privides that these stations abail be established in connection with the agricultural colleges in the several states where no atation has already heen established, and that section 9 provides that if the legislature is not in session the governor may on behalf of the state accept and designate the proper recipients of this fund. This has been done. He has designated the State Agricultural College of Oregon, and named the heen done. He has designated the State Agricultural College of Oregon, and named the new board as formed under the act of 1885, and I beg to inform you that I, as treasurer of this board, have now in my possession \$11,250, the first three-quarters of the first annual payment, and an assured by the treasury department that we have folly established our claim, and that the remaining \$3750 will be paid according to law on July 1. The building for the Agricultural College is nearing completion, and we hope to have it ready to turn over to the state early in June. As soon as this is done the state board will take control. A meeting of this board has been called for the 18th of June, when they will enter actively into the discharge of their duties, with a high bope and strong ambition of making the school what it was intended to be by the several acts of congress making appropriation for its support.

congress making appropriation for its support.

The board realize there is a great work before them and one of great practical value to the state, but in order to reap the greatest benefits from it, the board must have the hearly co-operation of all classes, and especially the council and support of the farming classes, for whose special benefit the school was created.

I bog to thank you for the warm support given to the state board by The Obscorian in the fight to hold for the board in the state one of its most valued in cuttions.

# TO WORKINGMEN.

Bead and Ponder the Words of James G. Blaine on the Condition of Labor in Europe.

VANCOUVER, May 31. To the Editor of the Obsorian; hay St.

The following words contained in the letter
of James G. Blaine, published in The Obs-GONIAN of May 30, should be read and

GONIAN of May 30, should be read and pondered by every working man in the United States:

"Were It possible for every voter of the republic to see for himself the condition and recompense of labor in Europe, the party of free trade in the United States would not receive the support of one wage-worker between the two occans."

These are the words of a statesman of experience and of personal observation, and they will be remembered by the people of the United States, when the free trade message of Grover Cleveland has been lorgotten. The "lasting stigma" of having permitted the American laborer to be degraded to the European loyel will never be fixed upon the statesmanship of James G. Blaine.

It is the authorship of the extracts from the paper edited and published by Mr. Irish during the war and lifter the war, that has attracted altention to Mr. Irish in Oregon, and made him uncomfortable here.

How John M. Gearin has received the following message, which we publish by request:

It was right for Mr. I tish to do this on general principles, and it was graceful and becoming in him as a work of penance and expiation.

What manner of man is he? What is the recipe of his popularity? are inquiries everywhere heard. He is as much the logical outcome of the Chicago convention of 1888 as Lincoln was the inevitable and glorious result of the Chicago convention of 1890. Then the great leader of the party, Seward, and the great publicians who supported hum were beaten by the popular uprising. History will be repeated.

# This is an Era of Reform.

Boston Journal.

The case of the hapless New Hampshire mail carrier, who, during the great blizzard, at the risk of his life crawled through the drifts four miles to deliver the mail, and has just been fined \$1.40 by the Washington authorities for "delay," is a good illustration of the petty and preposterous way in which the department business is done.

The substance of the remarks of George William Curtis in the New York World is that the maywanps don't know what they want, that nobody can tell what they want that they rejoice in the universal ignorance concerning their desires and purposes. It is clear, therefore, that the sacred cause of reform is not only nebulous but glad of it.

We mean just what we say and the public in general are familiar enough with our sales to know that when we say cost it does not mean 10 per cent. profit added to the cost of the goods. We propose to sell every garment in stock of the above lines at just what they cost placed on our counters. You will have an opportunity at this sale of parchasing the ready-made garment for less money than you could buy the material.

This is not a special sale, but a genuine old-fashioned closing-out sale. We have in stock at present three full lines of Ladles' Underwear from three of the largest factories in the United States. We must close out every dollar's worth, as we are making arrangements to manufacture these goods ourselves and will hereafter have our own special styles. You are invited to call and inspect these goods. Every garment marked in plain figures.

Rainoky and Tisza Disayow any Intention of Offending the French.

Parts, May 31—Goblet announced in the chamber of deputies that Austranhas assured the French intention toward I rance must be attributed to the speech of Herr von Tisza This explanation was made in reply to an interpolation made by M Reach who char acterized Tisza's language as discourteous and contrary to international comity Goblet and further that Count Kalnoky had expressed deep regret for the incident and declared that neither his government nor limited intended to affront France. Austria he said devire to maintain excellent relations between the countries. Herr von Tisza the Hunguran prame minister afterwards disclaimed any intention to wound French feeling. In conclusion goblet's not we are bound to be letter to deplay an institute of the declarations of Count Kalnoky and Herr von Tisza to be sincer, and it now depends on the latter to deplay an institute of the countries of the declaration of Count Kalnoky and Herr von Tisza to be sincer, and it now depends on the latter to deplay an institute of the countries of the first that the first of the first policy in the countries of the first policy of the countries of the first policy of the countries of the first policy of the first the dignity of France.
